

# Riva Integration Server

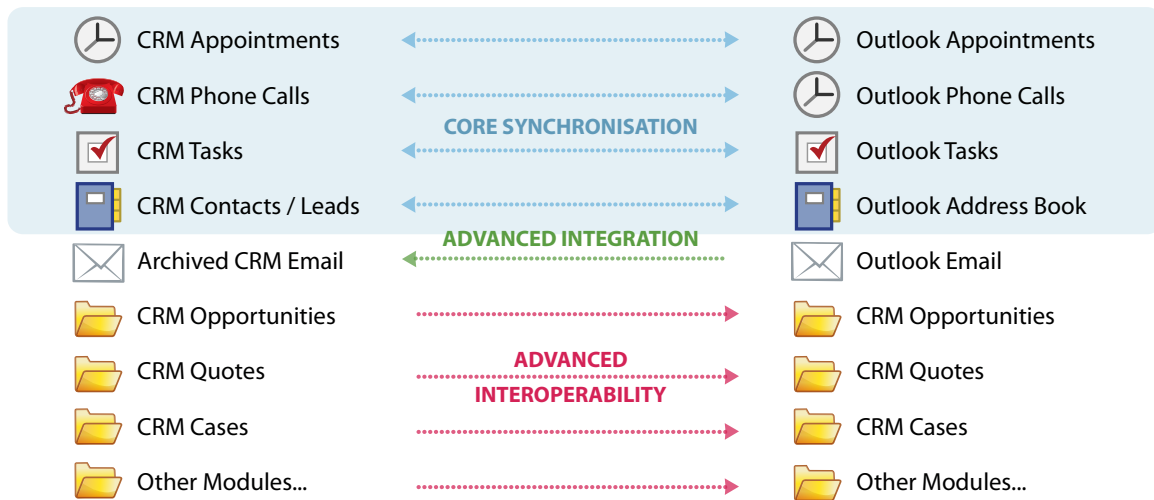

Transparent, server-side CRM integration for Exchange and GroupWise

**Michael Jones (CRM)**

**Michael Jones (Exchange Mailbox)**

## Better than your current Outlook plug-in

**Riva Integration Server for Microsoft Exchange and GroupWise** delivers server-side, enterprise-level CRM integration and interoperability for SharePoint and more than 12 leading CRMs.

**Riva Integration Server** gets installed once at the server level instead of installing an Outlook or GroupWise plug-in on each user's desktop, laptop and mobile device. Riva leverages the power of Exchange and GroupWise's native features.

Riva customers appreciate the quicker, easier and better integrated access to their CRM appointments, phone calls, tasks, contacts, leads, opportunities, quotes and cases directly from ALL Exchange and GroupWise clients – **Outlook, Outlook Web Access, Entourage for Mac, ActiveSync mobile devices, BES, GroupWise, IMAP and others.**
